

KEYNOTE & PANEL DISCUSSION

# Shaping the future with 6G:

## Potential for smart cities, healthcare, and industry

How and when **can 6G research outcomes be translated into practical, real-world applications** for the benefit of society and the economy?

**Which sectors** beyond telecommunications **stand to benefit most from early 6G adoption?**

**WEDNESDAY, 19 NOVEMBER 2025, 14:30–16:30**

**Venue:** Representation of the Free State of Bavaria, Michalská 12, Prague

### Keynote:

**Wolfgang Kellerer**, Full Professor for Communication Networks, Technical University of Munich (TUM)

### Panel discussion:

**Zdeněk Bečvář**, Professor and Head of 6G Mobile Research Lab, Czech Technical University in Prague

**Eva Russwurm**, Head of Outreach, 6G Valley, Friedrich-Alexander-Universität Erlangen-Nürnberg

**Marie Zezůlková**, BVV Living Lab Manager, Brno Exhibition Center

**Moderator: Michal Manhart**, Project Lead, Broadband Competence Office Czech Republic
