PRESS RELEASE

Botanique Hotel Prague Receives Prestigious International Sustainability Award – Green Key

Prague, August 28, 2025 – Botanique Hotel Prague proudly announces that it has been awarded the prestigious international **Green Key certificate**, one of the most recognized accolades in the field of **sustainable operations and responsible tourism**. This achievement is the result of **several months of intensive work by the entire team** and the successful completion of an independent audit.

Botanique Hotel Prague has thus become the **seventh hotel in Prague** to receive this title. Other holders include, for example, Augustine, a Luxury Collection Hotel Prague, The Julius Prague, and Marriott Prague Hotel.

Green Key – More Than a Certification

Green Key is not a label that can simply be purchased. It is awarded only to businesses that **demonstrably meet strict environmental and social criteria**. For Botanique Hotel Prague, this means in particular:

- **Water and energy savings** – implementation of energy-efficient technologies, LED lighting, and greywater recycling
- **Waste reduction** – emphasis on recycling, elimination of plastics, and responsible material consumption
- **Support for local suppliers** – collaboration with partners who share the same sustainability values
- **Guest and staff engagement** – active participation in ecological and socially responsible initiatives

The Green Key certification is valid until September 2026, when Botanique Hotel Prague will strive for its renewal.

A Shared Path to Sustainability

“Obtaining the Green Key certification is a great recognition for us and a confirmation that the direction we are taking makes sense,” says **Tomáš Nesvorný**, Managing Partner of Botanique Hospitality Management Group. *“Every day, we seek new ways to be more considerate of the environment, and this achievement would not have been possible without the dedication of our entire team. At the same time, we want to demonstrate that **sustainable operations and premium hotel service can go hand in hand** – our goal is to ensure that every stay at Botanique Hotel Prague is not only exceptionally comfortable and enjoyable but also respectful to our planet.”*

About the Green Key Certification

Green Key is the largest international sustainability certification program for hotels and tourist facilities. The program is managed by the **Foundation for Environmental Education (FEE)**, and its award is conditional on meeting strict environmental and social standards.
