# Phantom carriers

**Phantom carriers have become a hot topic and one of the most frequent causes of loss in road freight transport in recent years. They cause damages amounting to hundreds of thousands of euros to cargo owners, freight forwarders, and insurers alike.**

Our webinar will show how courts in different jurisdictions – Poland, Germany, the Czech Republic, and the Netherlands – approach liability and insurance claims arising from these losses. We will highlight key differences between national approaches and explain how they can be leveraged to your advantage in cross border litigation involving fake carrier fraud.

We look forward to your participation.

## Agenda

1. Case law in Poland
2. Case law in Germany
3. Case law in the Czech republic

5. Final summary and comparison; ways to leverage differences through an appropriate choice of forum (place of jurisdiction).
